

# When to Recommend Bruder Moist Heat Compresses

In addition to being a natural part of every patient's wellness routine, the **Bruder Moist Heat Eye Compress with MediBeads** can be an effective part of your treatment regime.

## Recommend use for conditions including:

- MGD
- Medications: Antihistamines, Antidepressants, Blood Pressure Meds., Diuretics, and others
- Contact Lenses
- Hyperosmolarity
- General Aging for All; Menopause; Hormonal Changes for All
- Some forms of Arthritis
- Over use of Digital Screens
- Blepharitis
- Stye / hordeola
- Chalazia
- Lack of Sleep; Nutrition
- Allergies
- Illness / Diseases: Scleroderma, HIV, Lupus, Bell's Palsy, RA, Bone Marrow Transplants/grafts, Diabetes, Sjogrens Syndrome; Some Autoimmune diseases
- Allergic Conjunctivitis
- Contact Dermatitis
- Rosacea
- Dehydration
- Injections (many types)
- Environmental Conditions
- Lid Margin Maintenance
- Surgeries (Cataract, Lasik, Cosmetic, & more)

The **Bruder Moist Heat Eye Compress** is also a smart preventative medicine tool. Help patients maintain lid margin health by recommending daily moist heat. Eye care practitioners have found that moist heat compresses containing silver-infused MediBeads can help promote healthy outcomes.

You can also now offer patients a complete wellness experience with the added benefits of the **Bruder Hygienic Eyelid Solution™** and **Bruder Hygienic Eyelid Sheets™**.

## For patients with other conditions or concerns, consider these additional options:

### The Bruder Moist Heat Sinus Compress

- Headaches
- Sinus issues
- TMJ
- Migraines

### The Bruder Cold Therapy Eye Compress

- Post-op (cataract, LASIK, cosmetic)
- Blepharoplasty
- Facial Procedures
- Submental Liposuction
- Injections (Botox, Fillers, & more)

Help educate patients that at-home maintenance and a wellness routine is as important as their daily dental regimen. Patients can take an active role in relieving uncomfortable symptoms, and preventing conditions from getting worse.
